

INTELLIGENCE, APPLIED.

Clinovyr

AI consulting & done-for-you automation for Placer County small businesses.

PROGRAM OVERVIEW · clinovyr.com · Granite Bay, CA

AI is everywhere. Applying it is the hard part.

- Owners are too busy running the business to research and vet AI tools.
- Big consulting firms are expensive and over-engineered for a 6–50 person company.
- Online freelancers are anonymous, generic, and gone the moment the invoice clears.
- The result: most local businesses know AI matters — but never actually start.

WHY NOW, WHY HERE

A high-trust, high-income market that's ready.

Placer County SMBs have the budget and the motivation. They just need a trusted, local partner who speaks business — not jargon.

We turn *AI* into business outcomes.

- Built by an operator with 15+ years running product and manufacturing — not a generic agency.
- Productized services with clear scope and fixed pricing, plus ongoing retainers.
- Industry-specific for medical, real estate, legal, construction, wellness, and retail.
- Done-for-you deliverables you can actually use — not a slide deck of theory.
